ÉDITO

COLLECTION

2024

For more than 30 years, we've been putting all our expertise into making our premium shell pools and spas. By imagining models with ever-more stylish lines, we see your pool as an integral part of your exterior, reflecting moments of happiness, sharing and well-being.

Entirely designed, created and manufactured in France, our pools adapt to your way of life, fitting into a small space or immersing yourself in the great outdoors.

We are proud to present our 2024 swimming pools and spas collection, which we have designed to be modern, innovative and daring!

P 14 YELO

A range of pools from 3.15 m to 9.90 m long, with flat bottoms or compound slopes, for those who love to have fun.

P 54 ECLYPS

A range of pools from 3.90 m to 10.80 m long, with flat bottoms or compound slopes, and submerged enclosures for automatic covers, to meet everyone's needs.

P 80 PEARL

The first range of pools from 7.50 m to 8.50 m in length, with a flat bottom and an under-deck cover, this revolutionary patented pool combines design, innovation and space.

FRENCH MANUFACTURING AND EXPERTISE

Careful manufacture and impeccable quality are our watchwords. Entirely designed, manufactured and tested in our factories in France, our know-how makes our models unique.

Our factories are equipped with precise tools that enable us to control the quality of our products down to the smallest detail.

Saint-Jean-d'illac factory, Gironde (33)

Simandre factory, Saône et Loire (71)

SHORT CIRCUIT

Since its creation in 2006, Aboral Piscines has had all its resins and gel coats manufactured in France.

ACTING NOW FOR TOMORROW

Almost 4 years ago, Aboral Piscines set up a production site in Burgundy that is unique in France. Heated with wood shavings and entirely covered with photovoltaic panels, this site is the most environmentally-friendly polyester pool manufacturing site in France.

**DISCOVER
OUR RESPONSIBLE
SWIMMING POOLS**

A SUSTAINABLE AND ECONOMICAL POOL

A COATING DESIGNED TO LAST

The inner lining of your ABORAL pool is made from gelcoat, a high-performance paint that is on average twice as durable as a liner.

ENERGY SAVING

Low heating consumption thanks to a 100% waterproof material.

ECONOMICAL MAINTENANCE

Thanks to their non-porous surface, Aboral pools do not require large volumes of chemical products for maintenance.

WATER SAVINGS

Less evaporation thanks to the perfectly watertight surface of our pools compared to traditional constructions.

PRODUCTION STAGES

ABORAL SWIMMING POOLS

1. Preparing the mould for your pool

2. Application of the gelcoat, which will give the pool its colour

3. Application of an anti-corrosion fibreglass cloth

4. Tricomplex layer, and **Alvéocore®** on the steps and bench seat

5. Installation of reinforcement platforms to ensure the stability of the basin

6. Fibreglass and resin spraying

7. Finishing and quality control

CUTTING PLAN

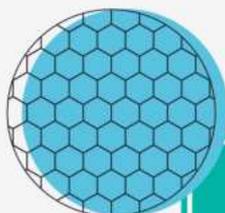

Iso NPG Aquashine® Gelcoat

High-performance resin + anti-osmosis glass fibre

High-performance resin + «tricomplex» structural fabric (50% thicker than market products)

Reinforcement preform

Reinforcement resin + fibreglass

EXCLUSIVE TO ABORAL
Anti-deformation **Alveocore®** structure under the steps and bench seat

INSTALLING YOUR ABORAL POOL

1. Earthworks and excavation of the ground surface

2. Delivery and installation of the pool

3. Upgrade

4. Backfill for walls and hydraulic networks

5. Creation of the concrete base

6. Laying coping stones* and putting in water

7. Filtration and commissioning

*optional coping stones

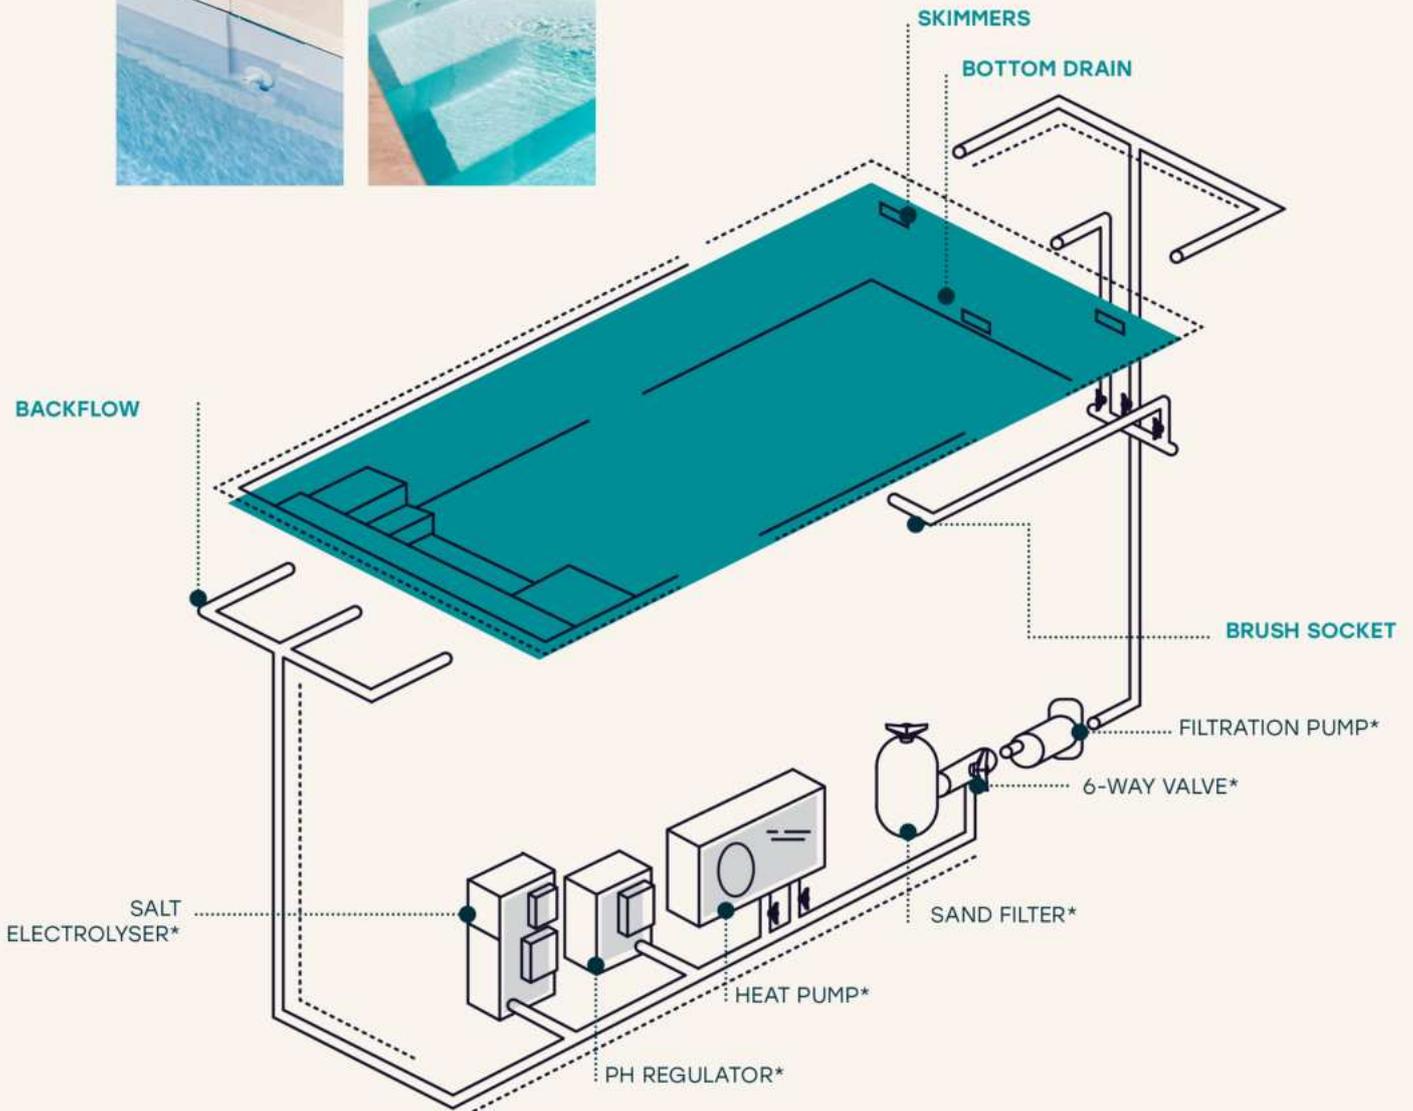

INSTALLATION IN 4 DAYS *

* Lead time given as an indication. May vary according to weather conditions, local authorisations, customer modifications, options selected, etc.

HOW DOES YOUR POOL WORK?

*Optional equipment, not included in the kit

EACH POOL IS DELIVERED WITH

ABORAL KIT

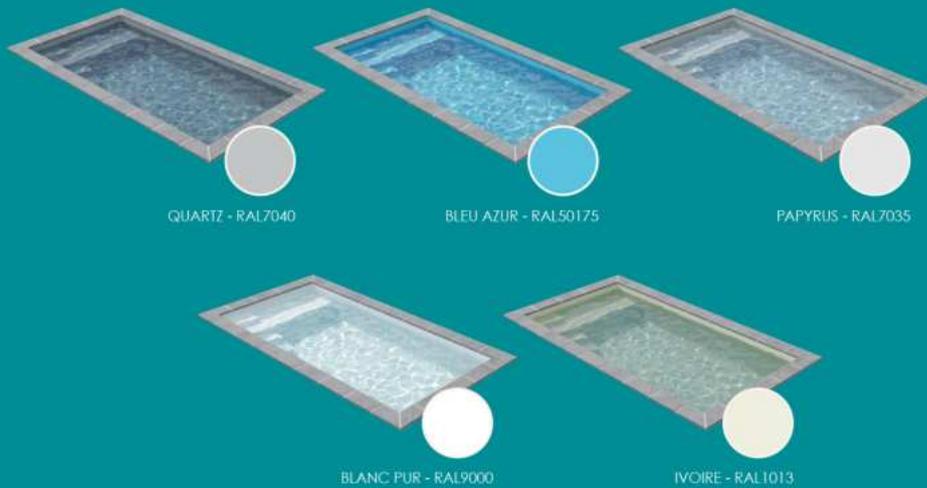

- + BOTTOM DRAIN
- + BRUSH INTAKE
- + SKIMMER(S)

- + DISCHARGE NOZZLES
- + PREVENTION BUNG
